

IRO Certificate #4599

NOTICE OF INDEPENDENT REVIEW DECISION

June 3, 2003

Re: IRO Case # M2-03-1023

Texas Worker's Compensation Commission:

___ has been certified as an independent review organization (IRO) and has been authorized to perform independent reviews of medical necessity for the Texas Worker's Compensation Commission (TWCC). Texas HB. 2600, Rule133.308 effective January 1, 2002, allows a claimant or provider who has received an adverse medical necessity determination from a carrier's internal process, to request an independent review by an IRO.

In accordance with the requirement that TWCC assign cases to certified IROs, TWCC assigned this case to ___ for an independent review. ___ has performed an independent review of the proposed care to determine if the adverse determination was appropriate. For that purpose, ___ received relevant medical records, any documents obtained from parties in making the adverse determination, and any other documents and/or written information submitted in support of the appeal.

The case was reviewed by a physician who is Board Certified in Anesthesiology and Pain Management. He or she has signed a certification statement attesting that no known conflicts of interest exist between him or her and any of the treating physicians or providers, or any of the physicians or providers who reviewed the case for a determination prior to referral to ___ for independent review. In addition, the certification statement further attests that the review was performed without bias for or against the carrier, medical provider, or any other party to this case.

The determination of the ___ reviewer who reviewed this case, based on the medical records provided, is as follows:

History

The patient is a 54-year-old female who was injured on ___. She has persistent neck, arm and low back pain. Physical therapy, epidural steroid injections, and psychological counseling have been performed without benefit. The patient has other, unrelated medical issues. The patient is taking Zoloft, but the dose is not specified.

Requested Service

Chronic pain management program x 30 days

Decision

I agree with the carrier's decision to deny the requested treatment.

Rationale

The patient has had extensive treatment to date with no improvement. There is little likelihood that additional treatment will be of benefit. There is no mention in the records presented for this review regarding the dose of Zoloft that the patient is taking. Aggressive antidepressant therapy should be utilized along with a home exercise regimen. The records presented show no indication for additional behavioral therapy.

This medical necessity decision by an Independent Review Organization is deemed to be a Commission decision and order.
